INTRODUCTION

This document is a Request for Proposal (RFP) to provide construction inspection services for the Missouri Housing Development Commission (MHDC). The goal of this RFP is to identify one or more qualified construction inspectors (Construction Inspector) to contract with MHDC to perform inspections during the construction of new as well as rehabilitated single family and multi-family housing structures. Through on-site inspections, the Construction Inspector will review construction progress and quality, examine contractor-generated documents, and report findings to MHDC through field reports and regular communication.

As the provider of construction and permanent financing for the development of housing in the state of Missouri, MHDC requires project architects, contractors and developers to follow local code requirements and specific guidelines established by MHDC and the federal government for safety, accessibility, adaptability, and quality. The Construction Inspector will represent MHDC and be responsible to MHDC for the services provided.

MISSOURI HOUSING DEVELOPMENT COMMISSION OVERVIEW

The Missouri Housing Development Commission (“MHDC” or the “Commission”) is a governmental instrumentality of the state of Missouri and a body corporate and politic. In 1969, the 75th General Assembly of Missouri, in the face of a general housing shortage severely affecting low and moderate income persons, established the Commission in order to increase the availability of decent, safe and sanitary housing at prices within the means of low and moderate income persons. The Commission’s authority is derived from Chapter 215 of the Revised Statutes of Missouri, as amended and supplemented. Further information about the Commission and its programs are available on the Commission’s website at www.mhdc.com.

Through its Rental Production Department, the Commission administers a variety of state and federal funding sources to finance the construction and rehabilitation of affordable rental housing for low-income Missourians. Funding is made available through a combination of issuing tax credits and tax-exempt bonds, providing grants, and making low-interest loans. Sources include the Federal Low Income Housing Tax Credits, Missouri Low Income Housing Tax Credit, HOME Investment Partnership Program, federal Risk-Share insurance, National Housing Trust Fund, and the Affordable Housing Assistance Program, as well as the Commission’s own general fund balances. The Commission’s rental production activities are governed by the laws and regulations of each particular funding source as well as Commission policy.
